Radiology Department

Offering CT Scans, Ultrasounds, DEXA Scans (Bone Density) and Radiography (X-Rays)

Blake Scott, BRS-RT

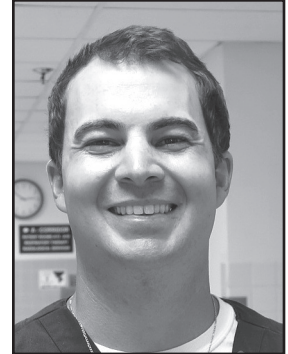

Blake Scott grew up in a family of teachers, but "I was always drawn to medical stuff," he said. While still a high school student in Lone Grove, he job-shadowed a friend who was an Ardmore x-ray technician.

Scott started his career in 2011 after completing a two-year radiology degree at North Central Texas College. He joined our Radiology Department in 2012. "The staff here has become like a second family to me. They do all they can to help with any problems," he said.

Scott recently completed a four-year bachelor's degree in radiologic studies, as well as a certification program in ultrasound.

His medical imaging duties include basic x-rays, CT scans, and ultrasound scans.

Scott's hobby is golf, another interest picked up in high school, while working part-time at the Lake Murray Golf Course.

Tyler Neely, RT

Tyler Neely toured the hospital before settling on radiology as a possible career. "I job shadowed in each department. This was my favorite," Neely said.

He started work taking x-rays in 2016. He is currently enrolled in a two-year radiology degree program at North Central Texas College in Gainesville. "I'm convinced that radiology will be what I do with the rest of my life," he said.

Time in the field also has given Neely valuable patient skills. "You have to put yourself in their shoes. I used to be shy, so I think about how I would want to be talked to and treated as a patient."

Neely is a 2013 graduate of Marietta High School. He played basketball on a team that advanced to the Area Tournament.
